Milestone #4. Defense, Error- free Project, and Publication.

4.1. Development and Defend Presentation and schedule Defense.

TOPIC: Agriculture is the main stay of any country.

From all indications it has been proven that no country can survive without engaging in intensive and extensive form of Agriculture. In other words, Agriculture is the pivot on which every economy revolves. To this end, the need for mechanized agriculture cannot be over emphasized.

Any country that depends on importing all her food needs will go bankrupt with time and will be susceptible to malnutrition and associated health problem. For a country to be a country indeed must be able to sustain the population with balanced nutrition.

Since food is indispensable, it becomes imperative that the production of food for a country is no longer a one-man- business nor is it a State government responsibility to produce enough food that can sustain the teaming population of a country. In this respect, it is the responsibility of a

Vocational education has been a platform for programs that aim to create awareness about aspects of crime and its effects to individuals, their families and the society (Landry, 2010).

Research Proposal

Milestone #1.1 Draft Action Project Plan.

The main goal of the project is to understand the effectiveness of vocational training in the reduction of crime. The action project plan will include the project objectives. The objectives of the proposal is identifying the importance of vocational training in reducing crime in my community Seabrook in Lanham Maryland. The action steps will include collection of primary as well as data. Interview and qualitative research methodology will be used for the primary research (Asana,2020). The secondary research will include the revision of the government reports and journal articles which will give an overview of the important aspects that are needed to be considered while conducting the research. Identification and prioritization of the action items will also be taken up. Allocation of the resources and setting of a timeline for the action will be taken up.

Milestone 1.2 Pre-proposal Draft.

The short introduction of the research will be given in the draft at first. The introduction will tell about the Vocational or teaching education in curbing young adult crime can be a useful tool in the reduction of crime. Crimes like drug dealings can be reduced with the help of Vocational education, especially the age of 18-35 years of age. The introduction will also tell that Vocational education is taken up with the intention of providing rehabilitation of the offenders as well as educating the prisoners with skills that can be used after the release (Carlos Haya, 2019). After that, the research proposal will establish the context of the research and also will explain about the topic and the importance of the topic. The draft of the research will also explain what questions of the research are, and also the methods of the research.

Submission Date: 02/16/2023.

Milestone #1.3 Pre-proposal final Submission.

The final draft of pre-proposal will include the issues that will be addressed based on the topic.

The importance of vocational training, the positives and negatives of the process in reducing crime has been noted. The recommendations on improving the laws and policies as well as making alteration in the process will be taken up in the final draft (Durgapur et al, 2016). It will be seen that the context of the research is met and the research questions are analyzed. The draft will also have answered all the research questions. Explanation of the techniques as well as methods that have been used in the research proposal will be included in the final draft. The language /terms that have been used will be explained/ defined in the draft.

Submission Date. 02/16/2023

Milestone #1.4 Pre-proposal Defense.

The research plan is good, and the questions of the research are also complete and hold the academic merit. The interview from the people in the field will help the researcher to collect data and also help to analyze the qualitative data. The research also gets the backup by using evidence-based references (Paperphile, 2021). The research follows the ethical consideration that will make the research more appropriate. The gathered evidence from interviews will help the research to get approval. Along with that, the establishment of the points essential to the research, and vocational education for reducing crime wave among young adults were mentioned in the research.
